# Site Mapping

What is
Site-Mapping?

A UX sitemap is a hierarchical diagram of a website or application, that shows how pages are prioritized, linked, and labeled.

0.0

Homepage

1.0

Ice Cream Recipes — Primary Page

1.1

Pistachio Mango — Secondary Page

```
                              ┌──────────────┐
                              │          0.0 │
                              │              │
                              │   Homepage   │
